

Is it More or Less?

Learn the concept of more and less.

Instructions: Color the fruits in the right column. If there are more fruits in the right column than in the left, color them red. If there are less fruits in the right column than in the left, color them blue.

The activity consists of three rows of boxes. Each row has two boxes connected by a blue bar. The left box contains a set of colored apples, and the right box contains a set of outline apples. The goal is to color the outline apples in the right box based on the comparison of the number of apples in each box.

Row	Left Box (Colored Apples)	Right Box (Outline Apples)
1	2	3
2	4	1
3	6	5
